Profile Summary

A BCA graduate with a strong foundation in Computer Science and specialized expertise in Python Full-Stack Development. Proficient in the entire web development lifecycle, leveraging Python, Django, and DRF (Django Rest Framework) to build robust APIs and backend systems. Experienced with frontend technologies, including HTML, CSS, JavaScript, Bootstrap, Tailwind, and React. Adept at database management and querying using SQL. Proven ability to work on live client projects in a professional environment.

Experience

Python Django Developer

Bizla | January 2026-March 2026

- Worked on live client projects, contributing to full backend development using Python and Django.
- Developed and maintained projects for real-world production use cases.
- Collaborated on end-to-end feature delivery, from requirements gathering to deployment on client projects.
- Gained hands-on experience in professional software development workflows, including version control with Git and GitHub.

Internship

Full-stack Development Intern

OneTeam Solutions | May 2025-November 2025

- Contributed to the full development lifecycle of web applications, leveraging Python, Django, DRF, React, and SQL.
- Engineered projects with RESTful API using Django Rest Framework (DRF) for secure CRUD operations on user and post data.
- Developed dynamic frontend applications with React, employing Tailwind CSS and Bootstrap for a responsive user experience.

Skills

Backend and Frameworks: Python, Django, Django Rest Framework (DRF), RESTful APIs.

Frontend and Libraries: React, JavaScript, HTML5.

Styling and UI: Bootstrap, Tailwind, CSS.

Database: SQL.

Version Control: Git, GitHub.

Projects

Luminary: Modern Full-Stack Blog Application

- Architected a full-stack platform using Django Rest Framework (DRF) for the backend RESTful API and React for the dynamic frontend.
- Designed a fully responsive UI/UX using Bootstrap and custom CSS for seamless viewing on all devices. Managed efficient data persistence and relational queries utilizing SQL.

Lyriquin: E-commerce Platform for Artists

- Built a full-stack e-commerce marketplace, LYRIQUIN, providing a stable platform for artisans to monetize their handmade products.
- Built the user interface using HTML, CSS, and Bootstrap. Designed the database schema using SQL to efficiently manage relational data for products, inventory, artists, and customer orders.

Education

Bachelor of Computer Application

Assabah Arts and Science College

Calicut University | 2022-2025
